- **Frameworks:** Bootstrap, Ant Design, Tailwind CSS
- **Libraries:** React, Redux
- **Developer Tools:** Git, GitHub, Chrome Developer Tools, VS Code

Projects

Kerala Tourism:

The Kerala Tourism Project seeks to build upon this growing interest in the state, offering a comprehensive approach to developing the tourism sector in a sustainable and inclusive manner. The project arose in response to Kerala's need to formalize and accelerate its tourism development in a structured way to meet the demands of an ever-growing industry.

Front Technologies:HTML5,Css,Javascript,.net

DataBase:MS Access

Basic E-Commerce

A fully functional e-commerce website designed with a modern and responsive user interface. The project allows users to browse products, view detailed product information, and add items to their cart. Data is fetched dynamically from a public API using the Fetch API, ensuring real-time product updates without page reloads.

Front Technologies:HTML5,Css,Javascript

Key feature:Product data dynamically loaded using Fetch API and Responsive design
